Projects

OneAppplus (Connected Digital Systems Pvt. LTD)

Technology: Reactjs, Nodejs, ReactNative and MongoDB (Team: 5)

- OneAppplus is a complete e-commerce web application that allows you to shop from anywhere in the world.
- Uploading a file (this made it easier for admin users to upload a product description with the current price.) Integrating artificial intelligence and machine learning to provide personalized learning about user queries and sophisticated insights that are used to present advertisements for websites like Amazon, Flipkart, etc. Improved user experience thanks to user feedback. This item is one of the products produced by the joint venture.

Human Resource Management Systems (HRMS) (Connected Digital Systems Pvt. LTD)

Technology: Reactjs and Nodejs, using Sequelize ORM and Postgresql (Team: 8)

- Our employer manages all employee attendance, payslips, Form 16s, and leave management tools in this product.
- I also help to create site designs that are optimized and responsive. Create PDFs for the attendance report and the error reports.

Digital Information Infrastructure System (DIIS) (Connected Digital Systems Pvt. LTD)

Technology: Reactjs and Nodejs, using Sequelize ORM and Postgresql (Team: 15)

- Created successfully in School & College Based on Online Classes under Assessment & Assignment.
- In the context of an online class, the following components are involved: Setup and Configuration, UI Components (created user-friendly interface elements that simplify interaction and navigation), Video Playback, API Integration: Enriching functionality and content by integrating external APIs
- File Upload (Simplified the process of submitting assignments and accessing learning resources)

Katbook (Kpost Software Pvt. Ltd)

- Katbook is a web application built entirely on the MERN stack and React native libraries.
- The content team has its own login to use the ReactJS-based text editor to create content. Every text editor stores database information in JSON format. Like Wikipedia, any content editing team can access the book and update or modify it.

"I am confident that my qualifications as a senior software developer will help me succeed. Please study my resume and get in touch with me right away to set up a formal interview."
